LUXURY VINYL COLLECTION

April's

FEATURED SUPPLIER

 **PRIMCO**
Know where you stand

Latitude is the latest technology in luxury flooring. We fuse a commercial grade wear layer and a design layer to a Solid Plastic extruded core (SPC), to create a rigid, dense and high impact resistant floor.

Stonecase SPC is yet another advancement in luxury vinyl category. Stonecast is a solid plastic core product with a 12 mil wear layer and attached 1.5mm EVA foam backing. The solid plastic core (SPC) allows for the product to be installed in applications from -40C to +65C. Perfect for cabins, sunrooms, travel trailers, and other three season applications.

CoreMax™ hybrid floor is the latest technology in luxury flooring. We fuse a commercial grade wear layer and a resilient design layer to a stable extruded core, to create the highest performing plank floor ever.
